

Trail Bikes for Hill Air Force Base

Help us purchase Trail Bikes to serve the families at HAFB that have members with special needs!

Those with limited mobility currently have no way to explore and enjoy all that nature has to offer in the Wasatch mountains. With the help of two people an individual with special needs can hike the trails that are normally out of their reach.

The Wolf Creek Foundation is committed to raising the funds to purchase two Trail Bikes and donating them to HAFB so that families are able to check them out from the Outdoor Recreation Center whenever it is convenient.

Please consider supporting the special needs community at HAFB by making a donation today!
